20 TOTAL OF INQUIRIES

QUESTIONS

Q. How do you rate your level of involvement in the meeting (20 and 21 November 2017) "#TV T21 COMMUNITY # e-Skills, inclusion and employability social (intercultural dialogue in tourism)."

Q. Would you like to participate in the week of Learning Activities that will take place in the ESE of IPSantarém from 16 to 20 April 2018?

WHY

A. It is an initiative that helps students at a professional level, making students work in advance on the project and work on the areas and programs they would give in class otherwise and without use. This type of project also helps those who participate as a guest because they are developing important affective skills and relationships with other guests.

A. Because I consider the involvement in this project an added value for the development of competences.

What changes do you identify in your competency profile when you participate as a volunteer in these activities?

A. At the level of the competency profile there will be changes of certainty. This type of projects requires a lot of "stuff" because it gives a lot of work before the days of "Learning Activities" but when the date arrives and we can see that the young people who participate are always with a smile on their face is very gratifying and that changes my profile. Already at the professional level helps me learn to work with various programs and develop skills with them and also in the practice and development of charisma.

A. It enriches our ability to engage with other people, improve our communication and integration with others, and deal with more complicated or non-everyday situations.
