QUESTIONS

Q. How do you rate your level of involvement in the meeting (20 and 21 November 2017) "#TV T21 COMMUNITY # e-Skills, inclusion and employability social (intercultural dialogue in tourism)."

Q. Would you like to participate in the week of Learning Activities that will take place in the ESE of IPSantarém from 16 to 20 April 2018?

WHY

A. Because I am very enthusiastic about this project and curious to see / live with them, the acquisition of the knowledge they will surely achieve.

We can also identify aspects to improve and congratulate ourselves with the surprises of their victories which will be something very special.

A. Because I like to help but mainly because I like to work with people who have trisomy, because with them I learn more than I expected, such as giving more value to life because much of our life is made of friendships and the most remarkable things that I saw when participating in the project were the strong friendships between them.

What changes do you identify in your competency profile when you participate as a volunteer in these activities?

A. Sharing and joint reflection is always a gain. After 2 days thinking about solutions and employability possibilities for young people with t21 in the field of tourism and e-learning I consider myself more apt to put into practice what I believe. Young people with T21 have a real ability to escape anonymity in relation to employment. They may more, if we provide. Accompanying this process makes us more fit and capable as well.

A. Direct observation, sharing and living with these young people and volunteers is an added value for the acquisition of new skills and future perspectives that can enrich the way we relate and value the potentialities and dignity of each one.
